

About KMA:

The Karnataka Mountaineering Association (KMA) started in 1966 is a pioneer body dedicated to the cause of promoting adventure and allied activities among the youth in the State of Karnataka. From humble beginning, the association has grown in stature and performance. Today, the association has the expertise and equipment to organize full-scale Himalayan Climbing and trekking expeditions. With scores of experienced climbers and trekkers, the association is fully capable of meeting any adventurous challenge related to terrestrial activities. KMA has impressively completed its **GOLDEN JUBILEE in 2015-16**.

We are proud that the KMA was instrumental in sowing the seeds of adventure in the State. Its activities spread to such an extent, that several adventure clubs sprouted and are today functioning. Our programmes are economically budgeted to target children and youth. In keeping with the times, we have fine tuned and diversified our programmes to cater to all sections of society – the children, the youth, the elders, the stressed out professional etc. Of late, as part of our social initiative, we are doing programmes for the underprivileged, like the orphans, street children etc. in association with various NGOs.

ACTIVITIES & ACHIEVEMENTS

- ❖ More than 100 Himalayan expeditions
- ❖ Basic & Advance Mountaineering Course sponsorships
- ❖ Skiing Courses
- ❖ Regular Rock Climbing and Adventure Camps
- ❖ Training NCC cadets

About the Campsite: Campsite is located at Mallalli, the base of Mallali Water Falls (Kumaradhara River is the main water course of this falls) in Madakeri District with complete camping facilities including dining hall, kitchen, toilets etc. The campsite is equipped with first aid and medical kit.

About Mallalli Water Falls: Mallalli Falls is situated in the northern region of Kodagu District, Karnataka. The Kumaradhara River is the main watercourse for this waterfall. The Kumaradhara later flows through Kukke Subrahmanya and merges with the Netravati River at Uppinangadi, which then empties into the Arabian Sea at Mangalore.

Mallalli Falls, the stunning milky white waterfalls, lies in the northern region of Kodagu district in the south-western Indian State of Karnataka. These falls lie 26 kilometres away from the town of Somwarpet, at the foot of the Pushpagiri Hills. The falls originate where River Kumaradhara takes a deep plunge of over 1000 metres and then follow a natural route that ends into the Arabian Sea. These gorgeous waterfalls are sure to take your breath away. The heavenly scenery with lush green forests and the clear white waters of River Kumaradhara falling deep from the point of origin of the waterfall is a marvellous sight never to be missed.

You'll know how beautiful the falls are right from the moment you spot them from the base. As you walk ahead, hear the heavenly sounds of the falls increase in volume and when you trek up to the location, feel the freshness in the air, and the cool water drizzle on your face as you watch the striking falls up close and personal. Whether a nature lover or not, this site should be included in the list of attractions to be visited this year.

Camp Activities:

- Trekking & Nature Walks
- Bouldering
- Zip-Line
- Tyrolean Traverse
- Ropes & Knots
- Team Building & fun activities
